

Nurse Rosie Flite & Alice Bailey

Caring. Comfortable.
Dignified. Respectful.
Genuine. Supportive.

These are the words you want to hear when facing difficult choices at the end of your life. They are also how Alive Hospice patients and their families describe their experience with Alive, one of the nation's first and most respected hospice programs.

Hospice care is covered by most insurance plans and Medicare. Alive Hospice is committed to providing care for all who need it, regardless of ability to pay. Financial assistance is made possible with support from donors, grants and United Way.

Patients and families find personal peace and solace within our care. Whether at home, in Alive Hospice's inpatient facilities or other care settings, our patients and their families receive personalized care to meet their unique and individual needs. We're here not only for patients' comfort and nursing care, but also for emotional and spiritual support for everyone affected by a terminal illness. Our caring team is available 24 hours a day, seven days a week. We support patients so they can embrace life and focus on what's important: those meaningful moments with the people they love.
